Feed Them Death is a solo project created by Void in 2017. Their 3rd full-length album "Negative" will be released in May 2021. The album is a monumentally ambitious example of unorthodoxy and noncompliance in extreme music, eccentrically fusing the aggressiveness and speed of Grindcore with the bleak and menacing heaviness of sludge and doom metal, all set against a backdrop of industrial metal and the tearing frequencies of Drone / Noise music.

## EIGHT LIVES DOWN
